This marketing communication is directed at retail clients in the UK and Professional investors in Jersey and Guernsey. Investors should read the legal documents prior to investing.

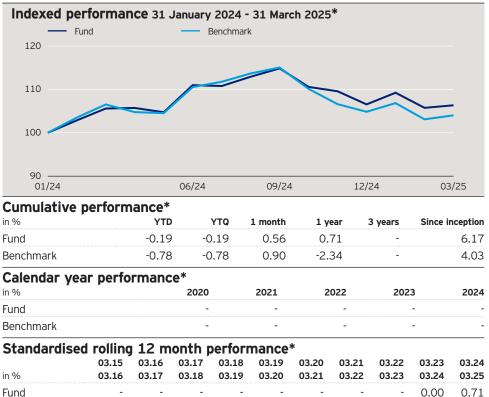

Investment risks

For complete information on risks, refer to the legal documents. The value of investments and any income will fluctuate (this may partly be the result of exchange rate fluctuations) and investors may not get back the full amount invested. As a large portion of the fund is invested in less developed countries, you should be prepared to accept significantly large fluctuations in the value of the fund. The fund invests in a limited number of holdings and is less diversified. This may result in large fluctuations in the value of the fund.

Fund Strategy

We seek to invest in companies for significantly less than they are worth. Our search for undervaluation leads us to look for new ideas in unloved areas of the market. At the same time, we have a clear preference for cash-generative companies with strong balance sheets, as these attributes suggest sustainable business models and conservative management. The Fund invests at least 80% of its assets in shares or other equity related securities of companies incorporated, domiciled or carrying out the main part of their economic activity in Emerging Markets excluding China.

Past performance does not predict future returns. Data points are as at month end.

Benchmark - - - - - - 0.00 -2 The performance data shown does not take account of the commissions and costs incurred on the issue and redemption of units. Returns may increase or decrease as a result of currency fluctuations. The investment concerns the acquisition of units in an actively managed fund and not in a given underlying asset.

*At Invesco we continuously monitor any applicable sanctions, including those imposed by the UN/US/EU and UK. These sanctions may preclude investments in the securities of various governments/regimes/entities and as such will be included in our compliance guidelines and workflows (designed to ensure compliance with such sanctions). The wording of international sanctions is something that we pay particular attention to as there are occasions where sanctions can exist in limited form, for example allowing investments in the secondary market. In addition to sanctions targeting entire countries, there are other thematic regimes, which may focus for example on human rights, cyber attacks, terrorist financing and corruption, which may apply to both individuals and/or entities/corporations.

Any investment decision should take into account all the characteristics of the fund as described in the legal documents. For sustainability related aspects, please refer to: https://www.invescomanagementcompany.lu/lux-manco/literature.
