

### Summary of fund objective

The Fund is actively managed. The Fund aims to provide a positive total return over a full market cycle, while maintaining a lower carbon intensity than that of the Fund's investment universe. The Fund seeks to achieve its objective through an active strategic and tactical asset allocation process to credit-related debt securities globally which meet the Fund's environmental, social and governance (ESG) criteria. For the full objectives and investment policy please consult the current prospectus. **Name changed from Invesco Active Multi-Sector Credit Fund on 29 April 2022. The fund objective also changed.**

### Investment risks

For complete information on risks, refer to the legal documents. The value of investments and any income will fluctuate (this may partly be the result of exchange rate fluctuations) and investors may not get back the full amount invested. Debt instruments are exposed to credit risk which is the ability of the borrower to repay the interest and capital on the redemption date. Changes in interest rates will result in fluctuations in the value of the fund. The fund uses derivatives (complex instruments) for investment purposes, which may result in the fund being significantly leveraged and may result in large fluctuations in the value of the fund. The fund may hold a large amount of Asset Backed Securities (ABS) (complex instruments) as well as other lower quality debt securities which may impact the liquidity of the fund under certain circumstances. The Fund may invest in a dynamic way across assets/asset classes, which may result in periodic changes in the risk profile, underperformance and/or higher transaction costs. The fund may invest in distressed securities which carry a significant risk of capital loss. The fund may invest in certain securities listed in China which can involve significant regulatory constraints that may affect the liquidity and/or the investment performance of the fund. Investments in debt instruments which are of lower credit quality may result in large fluctuations in the value of the fund. As a portion of the Fund may be exposed to less developed countries, you should be prepared to accept large fluctuations in the value of the Fund. The lack of common standards may result in different approaches to setting and achieving ESG objectives. In addition, the respect of the ESG criteria may cause the Fund to forego certain investment opportunities.

### Fund Strategy

The fund provides diversified, actively managed credit exposure across a broad range of global multi-asset fixed income markets. It also adheres to a comprehensive environmental, social and governance policy and climate objective designed to address key areas of concern for sustainability-focused investors. The portfolio construction process leverages the full scope of the Invesco Fixed Income global research platform. It is designed to be a disciplined, research-intensive process which combines top-down and bottom-up analysis. This seeks to capitalise on the outperformance rotation that can occur in fixed income markets.

Past performance does not predict future returns. Data points are as at month end.

Regulatory requirements that require impartiality of investment/investment strategy recommendations are therefore not applicable nor are any prohibitions to trade before publication. The fund yields shown are expressed as a % per annum of the current NAV of the fund. They are an estimate for the next 12 months, assuming that the fund's portfolio remains unchanged and there are no defaults or deferrals of coupon payments or capital repayments. Cash income is estimated coupons from bonds. The gross current yield is an indication of the expected cash income over the next 12 months. The gross redemption yield is a longer-term picture indicating expected annual total return. This means that in addition to expected cash income, it includes the amortised annual value of unrealised capital gains or losses of bond holdings currently held by the fund, calculated with reference to their current market price and expected redemption value made upon maturity of the bonds. Neither of the yields is guaranteed. Nor do they reflect the impact of the ongoing charges, the portfolio transaction costs or the entry charge of the fund. # ESG Supplement

## 28 February 2023

### ESG Characteristics

The Invesco Sustainable Multi-Sector Credit Fund (the fund) applies a rigorous Environmental, Social and Governance ESG framework to guide its active investments. Its ESG approach combines sector exclusions, carbon emission consideration and the selection of issuers with stronger ESG characteristics compared to their sector peers. The fund is comprehensively supported by Invesco's global ESG resources and infrastructure. Proprietary ESG Grades are an integral part of the fundamental credit research process helping to ensure that the portfolio's progressive investment mandate is delivered. Coordination on engagement topics and oversight are provided by Invesco's Global ESG team (the ESG team).

### SFDR (see Glossary)

The fund complies with article 8 of SFDR (the EU's Sustainable Finance Disclosure Regulation) in that it promotes environmental or social characteristics, and in that the companies in which investments are made follow good governance practices. More information is available at [www.invescomanagementcompany.lu](http://www.invescomanagementcompany.lu)

#### Responsible Investment Approach definitions are as follows:

**ESG Integration:** The process of including ESG factors in the fundamental financial analysis of companies and investments.

**Negative Screen / Positive Allocation:** A process that either excludes a portion of the investment universe that score badly on ESG criteria, focuses upon companies engaged in positive activities for the community or natural world, such as recycling, education or public transport or a combination of both.

**Sustainable Investments:** An investment in an economic activity that meets the definition of a Sustainable Investment per Article 2 (17) of the SFDR.

**Impact Fund:** Funds managed with the intention of generating positive, measurable social and environmental impacts, where impact has priority over financial performance.

**Engagement:** The process of communicating with representatives of a company as a shareholder with the aim of improving their behaviour and policies.

**Voting (Equities only):** Also known as Proxy Voting, it is a form of voting whereby the fund manager casts votes on behalf of their mutual fund shareholders on a variety of issues, that may include the election of board members, merger or acquisition approvals, or approving a stock compensation plan.

## Glossary

**ESG Characteristics:** Environmental, social, and governance (ESG) information is a critical part of corporate and investment strategy and embedding material sustainability considerations into corporate and investment decisions is integral to long-term success from both financial and sustainability perspectives.

**MSCI ESG Fund Rating:** Designed to measure the ESG risks and opportunities of a fund's underlying holdings, making it possible to rank or screen mutual funds and ETFs on a AAA to CCC ratings scale. This rating aims to provide fund level transparency and measures the ESG characteristics of the total portfolio. It is calculated as a direct mapping of MSCI ESG quality scores to letter rating categories. ESG Leaders are companies with an ESG rating of AAA or AA (best in class), and ESG Laggards are companies with an ESG rating of B or CCC.

**MSCI ESG Quality Score:** Calculated as the weighted average of the underlying holding's ESG scores, excluding any underlying holding where this information is not available. It is provided on a 0-10 scale, with 0 and 10 being the respective lowest and highest possible scores. MSCI scores underlying holdings according to their exposure to 20 industry specific material ESG risks and their ability to manage those risks relative to peers. The scores are based on industry-adjusted company ratings from MSCI.

- **Environmental Pillar Score:** Provides an assessment of environmental factors including emissions, carbon footprint, fossil fuel usage and sustainable opportunities.
- **Social Pillar Score:** Relates to the operating environment of an underlying holding, including labour management, product liabilities, and health and safety.
- **Governance Pillar Score:** Provides an assessment of risk and management practices related to Corporate Governance and Corporate Behaviour.

**ESG % Coverage:** The percentage of the fund and comparator where MSCI ESG Research data is available.

**Revenue Exposure to Sustainable Impact Solutions:** Represents the weighted average of the total of all revenues derived from any of the natural capital environment and social impact themes.

**Scope 1 Direct Carbon (tCO<sub>2</sub>e) weighted average:** Covers direct emissions from owned or controlled sources.

**Scope 2 Upstream Carbon (tCO<sub>2</sub>e) weighted average:** Covers indirect emissions from the generation of purchased electricity, steam, heating and cooling consumed by the reporting company.

**Scope 3 Downstream Carbon (tCO<sub>2</sub>e) weighted average:** All Other Indirect Emissions from activities of the organisation, occurring from sources that they do not own or control. These are usually the greatest share of the carbon footprint, covering emissions associated with business travel, procurement, waste and water.

**Wtd Avg (Weighted Average) Carbon Intensity:** The underlying holdings exposure to carbon intensive holdings, calculated as the weighted average of the constituent's intensity metrics: Scope 1 + 2 emissions per EUR 1M revenue for corporates and total country carbon emissions per EUR 1M GDP for government bonds.

**% Carbon Coverage (excluding cash):** This represents the % weighting of the Fund/Benchmark for which carbon data is available.
